Land Plans

Case Study:

Multi-let Business Park with historic unit transfers

Task: Create draft transfer, lease and ManCo plans.

Method: Overlay multiple transparent, toggleable data layers, including 50+ scans of transfer and lease plans. Analyse historic transfers, including rights granted and reserved, to inform the design of new plans and provide the client and legal team with a clear overview. Fully editable plans supporting a swift and efficient legal process.

Client Testinminal

"Ben has a fantastic eye for detail and when combined with his wider real estate experience and understanding you can expect a professional and reliable product. Ben has produced a large number of estate plans, disposal plans and lease plans for our business - it is really helpful to benefit from a prompt service when navigating fast moving transactions. We have found the layers particularly useful for looking at different scenarios in more detail."
